ASTROSHOP — ESCALATION CARD

Pin by the on-call desk. Full policy: escalation-guide.docx

WHO OWNS WHAT

PD-CATALOG	catalog: product-catalog, recommendation, ad, quote
PD-CHECKOUT	checkout: checkout, cart, payment, shipping currency, email
PD-DATA	data: accounting, fraud-detection, kafka
PD-PLATFORM	platform-eng: otel-collector, flagd, valkey-cart, astronomy-db
PD-STOREFRONT	storefront: frontend, frontend-proxy, image-provider

CHECKOUT IS FAILING

Page Checkout (PD-CHECKOUT) + owners of cart, product-catalog, shipping, payment NOW. Do not wait to localise.

First: is a fault flag set? Query flagd before paging a 2nd team.

COMMS

P1: incident channel <5min, status page <15min, updates /30min

P2: *incident channel, updates /60min*

Async faults (kafka lag): no status page, no customer impact
